Institutions of Higher Education and Learning are expected to put milestones in the field of knowledge dissemination and building human resource. The contribution of Higher Education impacts diverse fields of development such as literature, society, economy, polity, culture, science, health, education, media, judiciary and administration. The possibilities of education is immense and the impact of is immeasurable. In the present time these institutions experiment with the ontological and epistemological academic resources and initiate such studies which are instrumental for creating, practicing and sharing new domains in the field of traditional and modern knowledge. We cannot deny the evidence based contribution of higher education and research that has led to the development of ultra-modern, advanced societies of the 21<sup>st</sup> century. These societies are equipped with comfort, innovation, fast paced economic growth and the ever changing field of technology but still relationship between the various multidisciplinary researches and the stakeholders are complex and out-of-date. Researchers are putting painstaking effort and have innovative ideas in line with the complex present day developmental requirements but the intellectual gap between the stakeholders and the process of communication is too vast. This arises because of the lack of collaboration amongst researches of different disciplines, mediating agencies and the stakeholders. In order to bridge this intellectual vacuum and to achieve some of the above mentioned tasks, we seek to provide a common platform to the researchers, scholars, delegates, stakeholders of various disciplines to discuss and share their perspective on some of the vital issues on multidisciplinary research. The intellectual discourses will not only be confined to the delegates present in the seminar but will also be printed and shared with the wider spectrum of society and stakeholders. The college is taking this bold step to organize National Seminar on **PERSPECTIVES OF MULTIDISCIPLINARY RESEARCH** on 25<sup>th</sup> November, 2023 in the campus of the College at Nirmand.

## ABOUT THE COLLEGE

Govt. College, Nirmand was established in the year 2016 vide notification No. EDN-A-KA(1)4/2012 dated 16th May 2016 of the Govt. of Himachal Pradesh. Since its founding in 2016, Government College, Nirmand has assembled promising students and distinguished staff and provided them with an environment and resources to develop their talent to the fullest. The college primarily caters to the suburbs and rural areas of Nirmand and is committed to making educational opportunities accessible to students of various economic spectrum. The college currently offers disciplines of Arts (BA) and Commerce (B.Com) and is affiliated to Himachal Pradesh University, Shimla. The college is located in the lap of nature and offers conducive environment for the students to explore ideas, create new understandings in the field of academics, embrace and revere local cultural traditions. The college aims to deliver vibrant and inclusive educational experience that fosters acquisition of knowledge, community outreach, personal enrichment and professional development.

Rajesh Chauhan, A.P. Political Science  
Dr. Madan Lal Thakur, A.P. Hindi  
Rahul Sharma, A.P. Commerce  
Govind Bharti  
Himanshu Bhargava

## About Nirmand

Nirmand village is known as the most ancient village in Kullu District of Himachal Pradesh. Historically the village Nirmand was known as *Nrimund*, which means the head of a man. This beautiful hamlet stands overlooking the Sutlej Valley and is about 150 km from Shimla and 17 km from Rampur. The village is often referred as 'Kashi of the Himalayas' and is home to Ayurvedic herbs and trees of golden apricots, green almonds, cherries and delicious apples. Nirmand is renowned for its historical architectural marvels of wooden and stone cut temples that were built in 6th and 7th centuries and is also a popular tourist destination for travellers, researchers and nature lovers.
