Teaching Learning

CRITERION NO. 1 (Teaching Learning)

Sr. No.	Activity																																																																								
1.	<p>Mode of Teaching:</p> <p>i. <u>LECTURE METHOD ONLY:</u> Yes</p> <p>Description: The conventional lecture method facilitates the teacher to interpret, explain and revise the content of a topic, only for better understanding of the subject by the learners. At the end of instruction of each unit, the students are given specific assignment which enriches their learning. To enhance the effectiveness, lectures are presented as 'learning dialogues' including short intermissions facilitating the students to recapitulate the acquired knowledge by way of answering a few questions or a brief peer group discussion or a think-pair-share activity or any other relevant interactive session. Thus, the blended mode of learning which combines direct tutor-taught interaction with the online learning is largely implemented.</p> <p>iv. <u>AS PER NEED OF DIFFERENT GROUPS OF STUDENTS:</u> Yes (Remedial Classes)</p> <p>Description: Special remedial classes are arranged for the slow learners before or beyond the regular class schedule on specific days for each course and individual attention are paid for improving the Students' level of learning, problem solving and presentation.</p> <ul style="list-style-type: none"> • Click for Supporting Document 1.1.iv (same as 2.10) <p style="text-align: center;">Table of Courses Offered:</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th colspan="5" style="text-align: left;">DEPARTMENT OF ENGLISH</th> </tr> <tr> <th style="width: 15%;">Program code</th> <th style="width: 20%;">Program Name</th> <th style="width: 15%;">Course code</th> <th style="width: 40%;">Course Name</th> <th style="width: 10%;">Year of introduction</th> </tr> </thead> <tbody> <tr> <td rowspan="14" style="text-align: center; vertical-align: middle;">B.A. with English UG YEARLY Programme</td> <td rowspan="14" style="text-align: center; vertical-align: middle;">B.A. With English UG YEARLY Programme</td> <td>ENG CE 101</td> <td>CORE ENG COMP.</td> <td>2016</td> </tr> <tr> <td>ENG DSC 102</td> <td>ENG LITERATURE-I</td> <td>2016</td> </tr> <tr> <td>ENG DSC 103</td> <td>ENG LITERATURE-II</td> <td>2016</td> </tr> <tr> <td>ENG AECC 104</td> <td>WRITING SKILLS</td> <td>2016</td> </tr> <tr> <td>ENG CE 201</td> <td>CORE ENG COMP.</td> <td>2016</td> </tr> <tr> <td>ENG DSC 202</td> <td>BRITISH LITERATURE</td> <td>2016</td> </tr> <tr> <td>ENG DSC 203</td> <td>LITERARY CROSS CURRENTS</td> <td>2016</td> </tr> <tr> <td>ENG AECC SEC 204</td> <td>CREATIVE WRITING BOOK MEDIA REVIEW</td> <td>2016</td> </tr> <tr> <td>ENG AECC SEC 205</td> <td>Translation Studies and Principles of Translation</td> <td>2016</td> </tr> <tr> <td>ENG AECC/ SEC 301</td> <td>Technical Writing</td> <td>2016</td> </tr> <tr> <td>ENG AECC/ SEC 302</td> <td>Business Communication</td> <td>2016</td> </tr> <tr> <td>ENG DSE 303</td> <td>Soft Skills</td> <td>2016</td> </tr> <tr> <td>ENG DSE 304</td> <td>Academic Writing and Composition</td> <td>2016</td> </tr> <tr> <td>ENG GE 305</td> <td>Literature from Himachal</td> <td>2016</td> </tr> <tr> <td>ENG GE 306</td> <td>Contemporary India: Women and Empowerment</td> <td>2016</td> </tr> <tr> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> <tr> <th colspan="5" style="text-align: left;">DEPARTMENT OF HINDI</th> </tr> <tr> <th style="width: 15%;">Program code</th> <th style="width: 20%;">Program Name</th> <th style="width: 15%;">Course code</th> <th style="width: 40%;">Course Name</th> <th style="width: 10%;">Year of introduction</th> </tr> </tbody> </table>	DEPARTMENT OF ENGLISH					Program code	Program Name	Course code	Course Name	Year of introduction	B.A. with English UG YEARLY Programme	B.A. With English UG YEARLY Programme	ENG CE 101	CORE ENG COMP.	2016	ENG DSC 102	ENG LITERATURE-I	2016	ENG DSC 103	ENG LITERATURE-II	2016	ENG AECC 104	WRITING SKILLS	2016	ENG CE 201	CORE ENG COMP.	2016	ENG DSC 202	BRITISH LITERATURE	2016	ENG DSC 203	LITERARY CROSS CURRENTS	2016	ENG AECC SEC 204	CREATIVE WRITING BOOK MEDIA REVIEW	2016	ENG AECC SEC 205	Translation Studies and Principles of Translation	2016	ENG AECC/ SEC 301	Technical Writing	2016	ENG AECC/ SEC 302	Business Communication	2016	ENG DSE 303	Soft Skills	2016	ENG DSE 304	Academic Writing and Composition	2016	ENG GE 305	Literature from Himachal	2016	ENG GE 306	Contemporary India: Women and Empowerment	2016						DEPARTMENT OF HINDI					Program code	Program Name	Course code	Course Name	Year of introduction

Answer: Followed by all departments- above 80%, and published in College Prospectus

As per HP University guidelines, the marks scheme for all undergraduate courses in annual system for BA/BCom will be in the ratio of **70:30**, i.e., 70 marks for theory (Annual/Term End Examination) and 30 marks for **Continuous Comprehensive Assessment(CCA)/Internal Assessment (IA)**. In annual system for all courses of **BCom practical subjects** the ratio will be **50:20:30**, i.e. 50marks for theory and 20marks for **practical** (Annual/Term End)and 30 marks for **CCA/IA**.

Academic activity: The students are internally evaluated through class presentations, class test and house examination.

House examination: The house examinations are conducted after the completion of 75% of course curriculum in order to give an opportunity to students to assess their knowledge and expose them to university exams pattern. The evaluated script and result are shown to the students.

Continuous Comprehensive Assessment (CCA): To assess the progress of the students, Continuous Comprehensive Assessment system and end-term exams in ratio 30:70 has been adopted strictly as per the syllabi prescribed by the university. In CCA, 15 marks are awarded through house exams and 10 marks awarded on the basis of performance in class test, assignment, quizzes and presentation of the students. In addition, 5 marks are given on the basis of regularity and participation in other co-curricular activity.

STUDENT FEEDBACK FOR THE SESSION (2023-2024)

1st Pie Chart:

The contents of curriculum are relevant to the courses and programme
75 responses

The pie chart represents a survey where students of the college were asked if the contents of the curriculum are relevant to the courses and programs. Here's a breakdown based on the visible information:

- **57.3%** of students chose "Agree" (red slice), indicating that the majority feel the curriculum is relevant.
- **33.3%** selected "Strongly Agree" (blue slice), showing a significant portion who feel strongly about the relevance.

- A smaller percentage appears to have chosen other options, but they are not fully clear in the image. Likely, they are "Not Sure," "Disagree," or "Strongly Disagree," though these values seem very minimal based on the chart's slices.

From this, we can infer that **most students (90.6%) either agree or strongly agree** that the curriculum is relevant.

2nd Pie Chart:

The contents of the curriculum are according to the latest standards

75 responses

The second pie chart represents responses to the question about whether the contents of the curriculum are aligned with the latest standards. There are 75 responses in total, and here is a detailed breakdown:

- **42.7% Agree** (red slice): This is the largest segment, showing that a significant portion of students believe the curriculum is up-to-date with the latest standards.
- **25.3% Strongly Agree** (blue slice): A quarter of students strongly feel the curriculum meets modern standards, further reinforcing positive feedback.
- **21.3% Not Sure** (orange slice): A notable proportion is uncertain, indicating room for improvement in communicating how the curriculum aligns with current standards.
- **10.7% Disagree** (green slice): A small percentage does not believe the curriculum meets the latest standards, suggesting some dissatisfaction.
- **0% Strongly Disagree** (purple slice): There are no students who strongly disagree, meaning that although some are unsure or disagree, no one feels strongly against the curriculum's standards alignment.

Overall interpretation:

- **68% of students (42.7% + 25.3%) feel positively** that the curriculum is according to the latest standards, which is a strong majority.
- However, the **21.3% who are unsure** indicates there may be a lack of clarity or communication about the curriculum updates.
- The **10.7% who disagree** might reflect areas where the curriculum could be improved to better match evolving standards.

This pie chart highlights a mostly positive perception of curriculum relevance but suggests some areas for further review or explanation.

3rd Pie Chart

Curriculum size is appropriate for annual system

75 responses

The pie chart represents feedback from 75 students regarding whether the curriculum size is appropriate for the annual system. Here's an analysis of the chart:

- **Agree (Red, 70.7%):** The largest portion of students (70.7%) agree that the curriculum size is appropriate for the annual system. This indicates that a significant majority of the students are satisfied with the curriculum size.
- **Strongly agree (Blue, 16%):** A smaller portion, 16%, strongly agree, showing further support for the curriculum size but at a more committed level.
- **Disagree (Green, 13.3%):** 13.3% of students disagree, meaning they find the curriculum size inappropriate for the annual system.

There are no segments indicating "Not sure" or "Strongly disagree," meaning the majority of students have a clear opinion, either agreeing or disagreeing, with most tending to agree.

4th Pie Chart:

Learning Resources (Books, Study Materials, Online Resources) are adequately provided and available

75 responses

This pie chart shows the feedback of 75 students on whether learning resources (such as books, study materials, and online resources) are adequately provided and available. Here is a detailed analysis:

- **Agree (Red, 48%):** Nearly half (48%) of the students agree that learning resources are adequately provided. This suggests a generally positive sentiment toward the availability and adequacy of resources.
- **Strongly Agree (Blue, 41.3%):** A significant portion of students (41.3%) strongly agree that the learning resources are sufficient. Combining this with the "Agree" category, we see that 89.3% of students feel that learning resources are adequate.

- **Not Sure (Orange, small slice):** A small percentage is unsure about the adequacy of resources, indicated by the small orange slice. This shows that a few students may not have enough information or haven't formed a strong opinion on this issue.
- **Disagree (Green, small slice):** A minimal portion disagrees with the statement, implying that a very small group finds the resources insufficient.
- **Strongly Disagree (Purple, very small slice):** Similarly, a very small portion strongly disagrees with the adequacy of the learning resources.

Summary:

The vast majority of students (89.3%) believe that the learning resources provided are adequate, with a split between "Agree" (48%) and "Strongly Agree" (41.3%). Only a very small fraction expressed uncertainty or disagreement, showing overall satisfaction with the availability of learning materials.

5th Pie Chart:

Curriculum encourages Critical Thinking and Problem-Solving:
75 responses

This pie chart presents the responses from 75 students about whether the curriculum encourages critical thinking and problem-solving. Here's a detailed analysis:

Agree (Red, 46.7%): The largest proportion of students (46.7%) agree that the curriculum encourages critical thinking and problem-solving. This suggests that nearly half of the students view the curriculum positively in terms of promoting these important skills.

Strongly Agree (Blue, 34.7%): A substantial portion, 34.7%, strongly agree, reflecting a strong belief among more than one-third of students that the curriculum effectively fosters critical thinking and problem-solving.

Not Sure (Orange, 8%): A small percentage of students (8%) are unsure. This indicates that a minor portion of the group may not have a clear opinion on whether the curriculum promotes these skills or might lack enough experience to judge.

Disagree (Green, small slice): A minimal fraction of the students disagree with the statement, indicating that they believe the curriculum does not encourage critical thinking and problem-solving as much as it should.

Strongly Disagree (Purple, very small slice): A very small portion strongly disagrees, which implies that only a few students feel that the curriculum fails in this area entirely.

Summary:

Overall, the responses show that 81.4% of students either agree (46.7%) or strongly agree (34.7%) that the curriculum encourages critical thinking and problem-solving. A small number of students are unsure (8%), and very few disagree, reflecting overall satisfaction with the curriculum's emphasis on these skills.

ii. CLEANLINESS IN WASHROOM, BUILDINGS/CAMPUS:

At GDC Nirmand, maintaining cleanliness in washrooms, buildings, and classrooms is a collective effort involving student volunteers, peons, and a dedicated sweeper hired on a daily basis under the PTA (Parent-Teacher Association). Student volunteers actively participate in cleanliness drives, ensuring that classrooms remain tidy and conducive to learning. Peons assist by regularly cleaning common areas and supporting maintenance tasks across the campus. Additionally, the sweeper hired under the PTA ensures that washrooms and other high-traffic areas are kept hygienic and sanitized on a daily basis. This coordinated effort promotes a clean and healthy environment for everyone on campus, fostering responsibility and a sense of community.

college environment. Community Lunch has fostered a sense of volunteerism amongst the students and has promoted students to indulge in healthy and nutritious eating practices.

PROBLEMS ENCOUNTERED:

1. Lack of Funding or Resources

- **Problem:** Organizing and hosting a community lunch can be expensive, especially when accounting for food, venue, staff, and other logistics.
- **Solution:**
- **Teaching and non-teaching staff** contribute the majority amount whereas students contribute 1 rupee for the lunch.

2. Low Attendance

- **Problem:** Despite efforts, the event may not attract enough participants, which can affect the success of the event.
- **Solution:** Only sixty percent attendance is registered in the community lunch..

3. Dietary Restrictions

- **Problem:** Participants may have various dietary restrictions (e.g., allergies, vegan, gluten-free), making meal planning challenging.
- **Solution:** We try to keep limited and popular menu for the lunch.

4. Waste Management

- **Problem:** Leftover food and excessive packaging can create waste management issues.
- **Solution:** We plan portion sizes carefully to minimize food waste, and encourage the students and the staff to pack the leftover lunch for their home.

OBJECTIVES OF GREEN CAMPUS INITIATIVE:

- **Environmental Impact:** Reduced carbon footprint, conservation of resources, and enhanced biodiversity.
- **Educational Value:** Provides students with practical learning opportunities in sustainability and environmental management.
- **Cost Savings:** Lower utility costs through energy and water efficiency.
- **Enhanced Reputation:** Positions the college as a leader in sustainability, attracting students, faculty, and funding.

A well-executed Green Campus Initiative can transform the campus into a model of sustainability and inspire the broader community to adopt similar practices.

PROBLEMS ENCOUNTERED:

Implementing a Green Campus initiative comes with several challenges that institutions must address to achieve sustainability goals

1. Financial Constraints

- **Problem:** Initiating and maintaining green projects, such as energy-efficient buildings, renewable energy installations, or eco-friendly transportation, can require significant upfront investment.
- **Solution:** Seek external funding, grants, and partnerships with environmentally-conscious organizations. Develop a phased approach where smaller projects are implemented first to gradually build momentum.

2. Lack of Awareness and Engagement

- **Problem:** Students, faculty, and staff may not fully understand the importance of sustainability or may be resistant to changing their habits.
- **Solution:** Conduct awareness campaigns, workshops, and activities that engage the entire campus in green initiatives. Create incentives for sustainable behavior (e.g., rewards for energy-saving or recycling).

4. Infrastructure Limitations

- **Problem:** Older campus buildings and infrastructure may not be designed with energy efficiency in mind, making it difficult to retrofit or incorporate sustainable technologies.
- **Solution:** Prioritize energy audits and focus on gradual upgrades, starting with areas where improvements can be made with minimal cost (e.g., LED lighting, water-saving fixtures). New construction should adhere to green building standards.

1. .
2. **Support Local Causes:** Community lunches can be organized to raise awareness or funds for local initiatives, charities, or causes that benefit the broader community.
3. **Encourage Healthy Eating:** Provide nutritious meals, educating participants about the importance of healthy eating and potentially introducing them to local food sources or sustainable practices.

4. **Create a Safe and Welcoming Space:** Offer a warm, non-judgmental environment where people feel comfortable and welcomed, regardless of their social or economic status.
5. **Reduce Social Isolation:** Serve as an opportunity for individuals, especially those who may feel isolated or marginalized, to interact with others, fostering a greater sense of community and support.
6. **Share Resources and Information:** Use the gathering to distribute information about community services, resources, or events that could benefit participants.
7. **Encourage Volunteerism:** Provide an opportunity for community members to contribute by preparing meals, serving food, or organizing the event, promoting a spirit of volunteerism and collective responsibility.

4. Infrastructure Limitations

- **Problem:** Older campus buildings and infrastructure may not be designed with energy efficiency in mind, making it difficult to retrofit or incorporate sustainable technologies.
- **Solution:** Prioritize energy audits and focus on gradual upgrades, starting with areas where improvements can be made with minimal cost (e.g., LED lighting, water-saving fixtures). New construction should adhere to green building standards.

5. Sustainable Resource Management

- **Problem:** Managing resources like water, electricity, and waste sustainably across a large campus can be logistically challenging.
- **Solution:** Use smart technologies, such as sensor-based lighting, water-saving systems, and real-time energy monitoring tools. Regularly review resource usage data to optimize efficiency.

6. Waste Management Challenges

- **Problem:** Effective waste segregation, recycling, and composting on a large scale can be difficult to enforce and maintain.
- **Solution:** Educate the campus community on proper waste disposal practices, and place easily identifiable bins in convenient locations. Work with local recycling companies to streamline processes.

IMPLEMENTATION STRATEGIES:

Community Engagement

- The entire campus community, including students, faculty, and staff, are a part of this initiative. The various clubs regularly communicate goals, progress, and achievements of the activities on social media and print media.

2) VIDEO PROJECT ON FOLK SONG BY THE STUDENTS OF EKATVA LITERARY SOCIETY

A Video Project titled “Reviving the Revolutionary Folk Song from Village Sarpara”

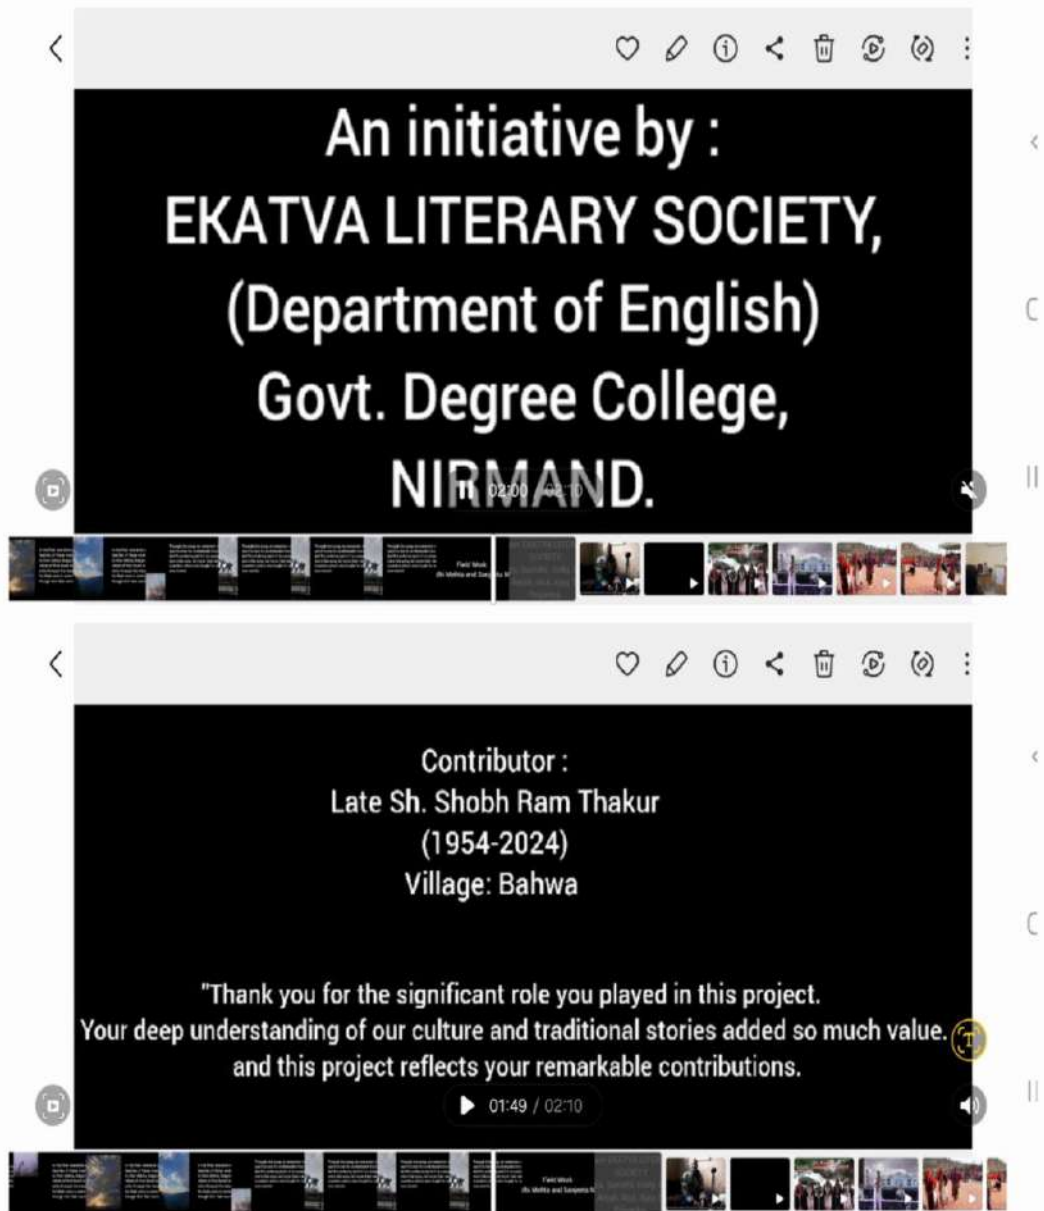

Volunteers of Ekatva Literary society were asked to create a video project on folk tradition of their villages during their winter vacation. Two of the volunteers (Sunidhi- BA 2nd year and Sanjeeta – BA 1st year) created a video project on a folk song from village Sarpara with the help of their grandfather.

Introduction: This project focuses on preserving a fading folk song from Himachal Pradesh, which recounts the revolutionary efforts of two local brave men, Shamnand Negi and Jhanki Babu from village Sarpara (15/20) near Rampur Bushahr district Shimla in Himachal Pradesh who resisted tyranny of a British Command.

Objective: The aim of the project is to raise awareness about and emphasize the importance of folk songs in preserving those acts of bravery that perhaps never made it to the famous historical documents.

Abstract: This project focuses on the preservation of a revolutionary folk song from Himachal Pradesh, which recounts the historical narrative of Shamnand Negi and Jhanki Babu, two local revolutionaries who opposed British colonial rule. The song details their attempt to assassinate a British commander, their subsequent arrest, and eventual imprisonment in the ‘Kala Pani Jail’ at Andaman Nicobar, known for its inhumane conditions. The song also conveys the emotional distress of their families, who prayed for their safe return but were left in sorrow. This folk song is culturally significant, symbolizing both the spirit of resistance and the personal costs endured during the fight against colonial oppression. Through the creation of a video project, the goal is to ensure the survival of this endangered cultural heritage, preserving its historical legacy for future generations to study and appreciate.

Conclusion: Through this project, we aim to preserve the historical and cultural relevance of this song, ensuring it is passed onto future generations and remains a testament to Himachal Pradesh’s rich Heritage.

This one act of defiance set off a wave of chaos.
The commander, furious and threatened,
Ordered the capture of these brave men.
As British guards scoured the land, the
revolutionaries fled, seeking refuge deep
within the dark forests.

Through this song, we remember not only their
sacrifice but the unshakeable love of their families
And the enduring spirit of our people. Today, we
share this song, we honor their memory, and the
countless others who fought for our freedom we
now cherish.
